

ENVIRONMENTAL POLICY STATEMENT

Critical Environment Solutions Ltd is committed to the implementation of proactive measures to help protect and sustain the local, national and global environment for future generations. Critical Environment Solutions Ltd aims to achieve the objective of improved environmental performance through pollution prevention, increased staff awareness and continuous improvement.

1. Critical Environment Solutions Ltd is committed to the protection and enhancement of the local, national and global environment and strives for continual improvement.
2. The ultimate responsibility for determining and ensuring implementation of the environmental policy rests at board level. Departmental managers will ensure adoption of the policy at operational levels of the organisation.
3. All employees' of the company are expected to conduct their work in a manner compatible with the company's environmental policy and objectives.
4. Critical Environment Solutions Ltd will continually relate environmental considerations to wider commercial objectives and responsibilities to stakeholders. Critical Environment Solutions Ltd is committed to the provision of appropriate training, personnel and resources to ensure that the environmental policy can be implemented effectively.
5. Critical Environment Solutions Ltd is committed to compliance in the letter and spirit of relevant laws and regulations, and to maintain a proactive approach to the implications of future legal requirements.
6. Critical Environment Solutions Ltd will continue to take steps to minimise any detrimental impacts on the environment caused by the operation of its facilities and property. Critical Environment Solutions Ltd aims specifically to minimise the adverse environmental impacts associated with effluent discharge, land use, emissions to air and waste generation through best available techniques as they emerge in order to prevent pollution and also to maintain water quality.
7. Critical Environment Solutions Ltd seeks to conserve natural resources by ensuring the responsible use of energy, water and materials by the continual implementation of the 3R's (Reduce, Reuse and Recycle) and still provide the quality expected by our customers.
8. Critical Environment Solutions Ltd will continue to implement a policy whereby environmental considerations are integrated into purchasing requirements, with regard to suppliers, their products and/or associated packaging.
9. A proactive, open and co-operative attitude to environmental issues will reflect Critical Environment Solutions Ltd's aim to be an environmentally responsible organisation.
